

<p align="center">General advice to floor coating systems:</p> <p align="center">Requirements and selection of subsurfaces / Ambience conditions / Selection of installation thickness / Chemical resistance / Maintenance and cleaning</p>	1
<p align="center">Materials for subsurface pretreatment:</p> <p align="center">2K PLASTISTONE® EP-metal primer/ 1K concrete decontaminator / 2K PLASTISTONE® EP-primers (construction resin) / 2 K PLASTISTONE® EP-barrier coat / 3K PLASTISTONE® EP-fine spattling compound / 3K PLASTISTONE® EP- mortar / 4K PLASTISTONE® EP-mortar steel fibre / 2K PLASTISTONE® EP-repair mortar</p>	2
<p align="center">Standard binding agent / Sealing and coating systems:</p> <p align="center">2K PLASTISTONE® EP-binding agent colourless / 3K PLASTISTONE® EP-sealing coloured / 3K PLASTISTONE® EP-self-levelling coating coloured / 3K PLASTISTONE® EP- self-levelling coating conducting coloured / 2K PLASTISTONE® EP-conductive varnish black</p>	3
<p align="center">Plasticised binding agents / Sealing and coating systems:</p> <p align="center">2K PLASTISTONE® EP-elastic binding agent / 3K PLASTISTONE® EP- elastic sealing coloured / 3K PLASTISTONE® EP- elastic self-levelling coating coloured</p>	4
<p align="center">Vapour diffusion capable binding agents / Sealing and coating systems:</p> <p align="center">2K PLASTISTONE® EP-DF binding agent (primer) / 3K PLASTISTONE® EP-DF fine spattling compound / 3K PLASTISTONE® EP-DF mortar / 3K PLASTISTONE® EP- DF sealing / 3K PLASTISTONE® EP-DF self-levelling coating / 3K PLASTISTONE® EP-DF self-levelling coating conducting / 2K PLASTISTONE® EP- conductive varnish black</p>	5
<p align="center">2 component PLASTISTONE® Epoxy Easy Line:</p> <p align="center">Universal coatings pre-filled, factory pigmented Available as standard, plasticised or vapour diffusion capable system.</p>	6
<p align="center">Special products:</p> <p align="center">1 K-polymer dispersion / 1 K and 2 K-PU sealings silk-mat or mat/ 1 K PU-Super Flex / 2 K PU-Mega Flex / 2 K PLASTISTONE® EP-sealing WE / 2 K PLASTISTONE® EP-Colour quartz sand adhesive agent / 2 K PLASTISTONE® EP-mortar granite / 1 K Hybrid joint-close / 1K und 2 K plaster joint mortar</p>	7
<p align="center">Accessories and additives</p> <p align="center">Pigments / colour chips / quartz sand / Silicon carbide / granite / anti-slip scattering material / thinner / pickling agent / suspending agent / copper band / screed clips / fillers / tools / plastic bucket / measuring cup / mixers / scales electronic</p>	8
